

Why Choose TSUN Storage Unit

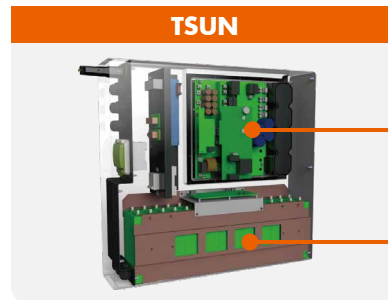

Hybrid Storage Unit
TSOL-HSU5.0K

AC Coupled Unit
TSOL-ACU3.0K

1

**STORAGE UNIT,
ALL-IN-ONE DESIGN**

Inverter

Battery

2

**RICH EXPERIENCE,
PROFESSIONAL
SOLUTION PROVIDER**

TSUN R&D team has more than 10 years of experience in PV grid-connected inverters and PCS technology, which can ensure the quality of the system and meet the constantly updated customer needs.

3

**EXCELLENT BATTERY
SUPPLIER, ENSURE HIGH-
QUALITY BATTERY**

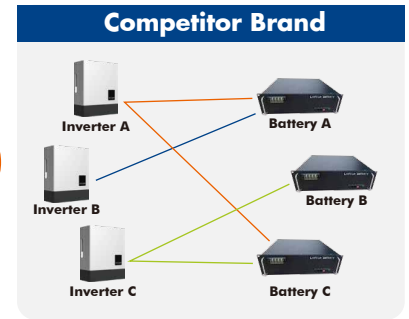

TSUN's battery supplier is a stock listed company with a daily production capacity of 1 million RMB and an annual sales value of more than 1 billion RMB, which guarantees the high efficiency and safety of batteries.

4 ALL-IN-ONE DESIGN, NO EXTRA MATCH

VS

All-in-one design, pre-commissioning in the factory, no need to match the inverter and battery, easier for using.

5 ALL-IN-ONE DESIGN, EASIER INSTALLATION

- TSUN**
- Step 1: Hang the unit
 - Step 2: Connect the AC&DC cable
 - Step 3: Parameter setting
 - Step 4: Start the system

VS

- Competitor Brand**
- Step 1: Hang the inverter
 - Step 2: Connect the AC&DC cable
 - Step 3: Install the battery
 - Step 4: Connect the battery
 - Step 5: Inverter setting
 - Step 6: Battery setting
 - Step 7: Start the system

All-in-one design, just hang the unit and connect the AC&DC cables, no need to install and commissioning the battery.

6 ALL-IN-ONE DESIGN, UNIFIED AFTER-SALE SERVICE

VS

All-in-one design, unified after-sale service, much more friendly for users, solve the problems in time.

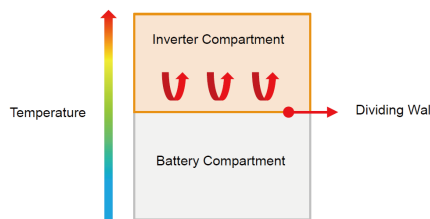

7 LARGER BATTERY, MORE POWER AVILABLE

Nominal Capacity: 5.12 kWh
Max. Capacity up to : 20.48 kWh

Battery with large capacity, up to 20.48 kWh capacity, meet the requirements of different people .

8 DIVIDING COMPARTMENT, LOWER BATTERY TEMPERATURE

Dividing compartment design, lower temperature for the battery, longer life time for the battery.

9 IEC/EN 62619 CERTIFICATION, MORE SAFETY

IEC/EN 62619 certification, meet the safety requirement of storage system, much safer for the users.
